Description

Equipped with large loggias and windows with exceptional lake views, this villa, built in 2000, is spread over three levels and is located on the first hill of Riva di Solto, with a 180-degree view of the lake and the surrounding hills.

The lakeshore is less than a kilometre away, restaurants and services can be reached in a few minutes on foot.

The ground floor is very bright and has very large windows that offer exceptional views of the lake and the surrounding hills.

Outside, the covered pergolas merge with the interior spaces. Internally, the kitchenette leaves space for the living area, which is connected to both the floor below and the first floor via an internal staircase.

In the basement there is a laundry room, a cellar and a large multipurpose room that can be used as a gym or relaxation room, with direct access to the garage.

Outside, the covered pergolas merge with the interior spaces. Internally, the kitchenette leaves space for the living area, which is connected to both the floor below and the first floor via an internal staircase.

In the basement there is a laundry room, a cellar and a large multipurpose room that can be used as a gym or relaxation room, with direct access to the garage.

On the first floor there are four bedrooms, a cloakroom and two bathrooms. There are two terraces with breathtaking views. As the villa has been designed for internal distribution, the connections are intended to separate this floor and create an independent two-bedroom flat.

The villa also has an independent two-bedroom flat on the ground floor, which has already been divided. The two-room flat also offers a beautiful view of the lake, a private garden and a covered loggia.

Outside, gardens, pergolas, paths and fences embellish the property, which has three different entrances, privacy, excellent sun exposure... and unforgettable sunsets.

The villa is ready to move into.
